

Dwight Kono, M.D. **9/11/08**  
Professor of Immunology  
Department of Immunology & Microbial Science  
The Scripps Research Institute  
**Inheritance of systemic autoimmunity in mouse models of lupus**

Hugh Rosen, M.D., Ph.D. **9/18/08**  
Professor  
Department of Chemical Physiology  
The Scripps Research Institute  
**Fatty links between innate immunity, adaptive responses and coagulation**

Bryan Cullen, Ph.D. **09/25/08**  
James B. Duke Professor of  
Molecular Genetics and Microbiology  
Director, Center for Virology  
Duke University Medical School  
Durham, N.C.  
**Viruses, microRNAs and RNA interference**

Cynthia Guidos, Ph.D. **10/16/08**  
Senior Scientist  
Hospital for Sick Children  
Developmental Biology  
Toronto, Ontario  
**Function of Notch Fringe Interactions in Lymphocyte Development**

Dario Vignali, Ph. D. **11/06/08**  
Associate Member/Professor  
St. Jude Children's Research Hospital  
Department of Immunology  
Memphis, TN  
**Molecular Control of T Cell Development and Regulatory T Cell Function**

Michael McHeyzer-Williams **11/13/08**  
Associate Professor  
Department of Immunology and Microbial Science  
The Scripps Research Institute  
**Regulating Antigen-Specific Adaptive Immunity**

Peter Mundel, M.D. **11/20/08**  
Professor of Medicine  
Director, Miami Institute of Renal Medicine  
Division of Nephrology and Hypertension  
Miller School of Medicine  
University of Miami  
Miami, FL  
**Regulation of actin dynamics by calcineurin initiated proteolysis**

Juan Carlos Zuniga-Pflucker, Ph.D. 12/4/08  
Professor  
Department of Immunology  
University of Toronto  
Senior Scientist, Sunnybrook Research Institute  
Toronto, Ontario  
**Signaling inputs controlling  $\alpha\beta$  vs  $\gamma\delta$  T-lineage decisions**

David Artis, Ph.D. 12/11/08  
Assistant Professor  
University of Pennsylvania  
Department of Pathobiology  
Philadelphia, PA  
**Regulation of immunity and inflammation in the gut**

Christopher Chang, Ph.D. 12/18/08  
Assistant Professor  
Department of Chemistry  
University of CA, Berkeley  
**New Chemical Approaches to Studying Oxidation Biology in the Brain**

Dennis Burton, Ph.D. 1/8/09  
Professor  
Department of Immunology and Microbial Science  
The Scripps Research Institute  
**Can antibody contribute to HIV vaccine protection?**

Ellen Rothenberg, Ph.D. 1/15/09  
Professor  
California Institute of Technology  
Division of Biology  
Pasadena, CA  
**Stem cell to T cell: pathway to commitment**

Arthur Weiss, M.D., Ph.D. 1/22/09  
Professor  
University of California, San Francisco HHMI  
San Francisco, CA  
**The initiation and regulation of TCR signaling**

Charles Weissmann, M.D., Ph.D. 1/29/09  
Senior Research Scientist  
Scripps Florida  
**The Secret Life of Prion Strains**

Michael Croft, Ph.D. 2/5/09  
Member  
La Jolla Institute for Allergy and Immunology  
Division of Molecular Immunology  
**TNFR Family Costimulation, Evolution, and Regulatory Activity**

Dorian McGavern, Ph.D. **2/12/09**  
Associate Professor  
The Scripps Research Institute  
Department of Immunology and Microbial Science  
**The mind's view of viruses: real time imaging of viral pathogenesis in the CNS**

Gwendalyn Randolph, Ph.D. **2/19/09**  
Associate Professor  
Department of Gene and Cell Medicine  
Mt. Sinai School of Medicine  
New York, NY  
**Monocytes, dendritic cells, and their migration in atherosclerosis**

Jonathan Yewdell, M.D., Ph.D. **2/26/09**  
Chief, Cellular Biology Section  
Laboratory of Viral Diseases, NIH/NIAID  
Bethesda, MD  
**Generating and Presenting Endogenous Peptides to CD8+ T Cells**

James Allison, Ph.D. **3/5/09**  
Chairman, Immunology Program  
Memorial Sloan-Kettering Cancer Center  
New York, NY  
**Immune Checkpoint Blockade in Cancer Therapy**

Christopher Wilson, M.D. **3/12/09**  
Professor  
University of Washington  
Department of Immunology  
Seattle, WA  
**Epigenetic Regulation of T helper Cell Function**

Alexander Tarakhovsky, M.D., Ph.D. **3/19/09**  
Irene Diamond Professor of Immunology  
The Rockefeller University  
New York, New York  
**Epigenetic control of antiviral immunity**

Leo Lefrancois, Ph.D. **3/26/09**  
Professor  
University Connecticut Health Center  
Department of Medicine, Division Rheumatology  
Farmington, CT  
**Factors controlling memory T cell development**

Robert Woods, PhD **4/2/09**  
Assistant Professor  
The University of Georgia  
Department of Biochemistry and Molecular Biology  
Athens, GA

Hilde Cheroutre, Ph.D. **4/9/09**  
Full Member  
Division of Developmental Immunology  
La Jolla Institute for Allergy & Immunology  
**A Second Chance for Immune Regulation: Re-Programming  
the effector cells**

Ananda Goldrath, Ph.D. **4/16/09**  
Assistant Professor  
UCSD  
**Surviving the crash: Transcriptional regulation of CD8 T cell survival**

Nicholas Gascoigne, Ph.D. **4/23/09**  
Professor  
Department of Immunology and Microbial Science  
The Scripps Research Institute  
La Jolla, CA

Mitchell Kronenberg, Ph.D. **4/30/09**  
President and Scientific Director  
La Jolla Institute for Allergy & Immunology  
**Innate-like recognition of microbes by natural killer T cells**

Klaus Ley, M.D. **5/7/09**  
Head and Member  
Autoimmune Research: Inflammation Biology  
La Jolla Institute for Allergy & Immunology

Onur Boyman, M.D. **5/14/09**  
Staff Physician  
Division of Immunology and Allergy  
University Hospital of Lausanne  
Lausanne, Switzerland

Dan Littman, M.D., Ph.D. **5/21/09**  
Professor, Skirball Institute  
NYU School of Medicine, HHMI  
New York, NY

Michael Lenardo, M.D. **6/4/09**  
Chief, Molecular Development of the Immune  
System Section, Laboratory of Immunology  
National Institute of Allergy and Infectious Diseases  
Bethesda, MD

Lindsay Whitton, MD, PhD **6/11/09**  
Professor  
The Scripps Research Institute  
Department of Immunology and Microbial Science  
**T cell responses to virus infections**

Vijay Kuchroo, D.V.M., Ph.D. **10/1/09**  
Professor of Neurology  
Harvard Medical School  
Boston, MA

Emil Unanue, M.D. **10/08/09**  
Professor and Chairman  
Washington University Medical School  
St. Louis, MO

John O'Shea **11/5/09**  
NIH/NIAMS  
Scientific Director  
Molecular Immunology and Inflammation Branch  
Bethesda, MD

Dennis Kasper, M.D. **11/12/09**  
Harvard Medical School  
Department of Medicine, Microbiology,  
and Molecular Genetics  
Boston, MA

**Intestinal microflora in immunologic health and disease**

Michel Nussenzweig, M.D., Ph.D. **11/19/09**  
Shermann Fairchild Professor of Immunology  
HHMI/Rockefeller University  
Department of Molecular Immunology  
New York, NY
