

BENEFITS OVERVIEW FOR SENIOR EXECUTIVES AND FULL PROFESSORS

The Scripps Research Institute (TSRI) offers eligible employees a flexible benefits program. The program provides \$2,672.22 per year in order for employees to purchase the benefits they need or desire most. This amount is sufficient to purchase a medical plan, the dental plan, and life insurance equal to two times annual salary. Employees who do not need TSRI benefits may waive benefits (except life insurance) and receive the unused benefit credits as taxable income in their paycheck. Employees commence benefit participation on their date of hire. Benefit coverage stops at the end of the month in which employment terminates. Coverage is available for dependents, including spouse, domestic partner, and/or children for a nominal extra cost.

BENEFITS COSTS

As a part of the benefits package, you will receive an allotment of “benefits credits” to purchase your benefits. You are given enough benefit credits to cover yourself with a medical plan, a dental plan, and life insurance at two times your salary, at no cost to you.

Benefit Credits = \$2,672.22

You add the price tags of your benefits to determine your total price tag. Then compare your total price tag with your Benefit Credits.

Total price tag equals Benefit Credits. There is no effect on your pay.	Total price tag less than Benefit Credits. You receive the difference as additional taxable pay: \$360 annually, \$15 per paycheck.	Total price tag greater than Benefit Credits. You make up the difference with your Pre-tax Dollars: \$2,376 annually, \$99 per paycheck.

All deductions for your benefit choices, except dependent life insurance, may be taken from your paycheck before taxes are deducted. Employees working with certain foreign visas or under certain tax treatments may not be eligible for pre-tax payroll deductions. Based on the present Social Security Administration provisions, a reduction in your Social Security benefits caused by your pre-tax benefit deductions will be minimal.
