STEM CELL

MEETING ON THE MESA

OCTOBER 29 - 31, 2012 | LA JOLLA, CA

SAVE THE DATE

The 2012 Stem Cell Meeting on the Mesa is a three-day conference aimed at bringing together senior members of the business development and scientific research communities within the regenerative medicine field to advance stem cell science into cures for debilitating diseases and injuries. The meeting features a nationally-recognized Scientific Symposium attended by more than 500 leading scientists and researchers in conjunction with the industry's premier annual Investor and Partnering Forum, drawing an additional 300 attendees from across the globe. This Forum, attended by top regenerative medicine companies, big pharma, disease philanthropies, investors and clinicians from major research institutes, is designed to facilitate a bridge between academia and industry through one-on-one meetings, furthering the translation of clinical research.

2nd Annual Investor and Partnering Forum

October 29 & 30, 2012

Sanford Consortium | La Jolla, CA

7th Annual Scientific Symposium

October 31, 2012

Salk Institute for Biological Studies | La Jolla, CA
