Join us in historic Boston for the latest in progressive stem cell research

Hear the hot topics in stem cell research and regenerative medicine while meeting with stem cell professionals from around the world at the [ISSCR 11th Annual Meeting](#), June 12-15, 2013, co-sponsored by the Harvard Stem Cell Institute.

[Plenary sessions](#) report on:

- Stem Cells and Fate Control
- Regeneration, Engraftment and Migration
- Disease Modeling
- Cell and Gene Therapy
- Genomics and Epigenomics of Stem Cells
- Making Tissues and Organs

Twenty concurrent sessions and more than 2,000 scientific posters on display contribute to the breadth of the conversation. [View the complete schedule at a glance.](#)

This will be your single-best opportunity during the year to learn from leaders in the field, share your ideas with contemporaries and discover new, cutting-edge products and services. View the [ISSCR 11th Annual Meeting](#) website to start planning for your most stimulating week of the year.

We look forward to seeing you in Boston!

[FORWARD THIS EMAIL TO A COLLEAGUE!](#)

Encourage your peers to join you to experience the innovative science and important conversations that will take place.
